More Malema Mania

"How ironic to see that a man who has so little to say, given so much media prominence to propagate his divisive policies." Says Rev Theunis Botha, Leader of the Christian Democratic Party (CDP).

"Malema has consistently represented the worst traits in African Politics and that is, gaining power by pitting people against each other and making extravagant promises of taking from one group and giving to another. The problem is that, that which is taken is always utilised to enrich only the leader and his cronies. Point in fact being Magabe and many other African leaders.

"It is time that the country desists from giving prominence to those who put forward policies that will only lead to economic disaster and not economic freedom as promised."

Meer Malema manie

"Hoe ironies om te sien dat 'n man wat so min te sê het, soveel media prominensie gegee word om sy verdelende beleid te versprei." Sê ds Theunis Botha, leier van die Christen-Demokratiese Party (CDP).

"Malema verteenwoordig konsekwent die swakste eienskappe in Afrika-politiek, dit is om mag te bekom deur mense teen mekaar te put en om buitensporige beloftes, van neem van een groep en gee aan 'n ander, te maak. Die probleem is dat dit wat geneem word altyd gebruik word om slegs die leier en sy trawante te verryk. Byvoorbeeld Magabe en baie ander Afrika-leiers.

"Dit is tyd dat die land op hou om prominensie te gee aan diegene wat 'n beleid voorlê wat net sal lei tot ekonomiese ramp en nie ekonomiese vryheid soos belowe word."
