Subject: CDP supports America's stand on Jerusalem being the Capital of Israel.

CDP supports America's stand on Jerusalem being the Capital of Israel.

The Jews have been one of most persecuted people in the world. Who can forget the inhumane way in which the Nazis under Hitler treated them in Germany? There was a clear plan to exterminate them, if that were

possible. In fact there was an anti-Jewish feeling in many countries throughout the world.

In 1948 they were given a homeland of their own which is the only Jewish homeland in the world. Here they could govern themselves according to their own religious laws and celebrate their own Sabbaths and holy days.

This was a wonderful gift and many Jews left Europe and other parts of the world and went to Israel to live in an environment where they could feel comfortable. The Jewish people have a long and strong tie to Jerusalem. Whereas the Palestinians have many holy places all around them in which they can practice their Islamic faith.

How can we even begin to consider not lending our support for Jerusalem being the capital of Israel?

We are a Christian Party with a strong allegiance to Israel.

Everyone deserves the right to live safely and without interference amongst those who share their common heritage and believe, as they do.

Surely the Jewish nation has a right to a home of their own.
