Schools to be made more accessible and inclusive for children of different sexual orientation and preferences.

In the past, South Africa was said to be about ten years behind America and five years behind Europe. That is no longer the case. It would appear, that every conceivable abomination dreamt up by extreme leftists in America and Europe, is immediately embraced by the ANC government. It looks like they are falling over themselves to obey and carry out the wishes of their WEF and NWO masters. They have slavishly followed every step prescribed to them in order to advance the 2030 agenda, all this to the detriment of South African citizens. For example the use of the Disaster Management Law during the Covid 19 "pandemic", which led to arbitrary lock downs and vacs mandates.

It has now come to light that the department of basic education is in the process of setting guidelines - that according to them - *"Will ensure schools are more accessible and inclusive for children of different sexual orientation and preferences."*

Although the document has, as yet, not officially been launched for public input, it is evidently under discussion with different role players. Who exactly these role players are remains to be seen. Having seen the results in other left leaning countries where such "guidelines" have been put into place, the CDP wants to express its disapproval of any such intrusion into our education system, and hereby lodge its wholehearted opposition to this demon-inspired attempt by a government institution to introduce such a controversial subject into our school curriculums.

Instead of them focussing on teaching our children sound moral principles and subjects such as reading, maths and science that will stand them in good stead for the rest of their lives. One of the ideas that is being put forward is that teachers should do away with addressing learners as "boys and girls" and names that indicate the gender of a person, as according to them, "No one can know what the gender of a person is by simply looking at them."

Learners must also, under no circumstances, be separated from each other as "boys and girls" as this could be "extremely confusing" to transgender learners. Furthermore non-gender specific toilets and cloakrooms needed to be provided and gender neutral uniforms must be available should learners prefer to wear them.

Google tells us, "there are many gender identities including, male, female, transgender, gender neutral, non-binary, agender, pangender, genderqueer, two spirit, third gender, and all, none of, or a combination of those." According to Healthline, "there are sixty eight terms that describe gender identity and expression." And to think this whole movement started with 'queers and lesbians'. According to the Word of God and biology however, there are only two genders, male and female. Any others are manmade and engineered derivatives.

Although a spokesperson for the department has stated that these are guidelines only and that the concept has not yet been discussed with role players the CDP wants to appeal to churches to take the matter seriously. Take the time to be involved in issues such as these that are nothing less than the brain washing of the children of your congregants.

The CDP will keep an eye on this matter and inform you of further developments.

Skole moet meer toeganklik en insluitend gemaak word vir kinders wat verskil oor seksuele oriëntasie en voorkeure.

In die verlede was daar gesê dat Suid Afrika sowat tien jaar agter Amerika en vyf jaar agter Europa is. Dit is nie meer die geval nie. Dit lyk nou asof elke denkbare gruwel wat deur linksgesinde ekstremiste in Amerika en Europa bedink word onmiddelik deur die ANC omarm word. Dit lyk asof hulle oor hulself val om die wense van hulle WEF en NWO slawemeesters te gehoorsaam.

Hulle het sover elke stap gevolg wat aan hulle voorgeskryf word om die agenda vir 2030 te bevorder, alles tot nadeel van die burgers van Suid Afrika. As voorbeeld die benutting van Rampbestuurwetgewing gedurende die Covid19 “pandemie”, wat gelei het tot arbitrêre begremling en vaksine mandate.

Dit het nou aan die lig gekom dat die departement van basies opvoeding in die proses is om riglyne neer te lê wat volgens hulle *“Sal verseker dat skole meer toeganklik en insluitend sal wees vir kinders wat verskil aangaande seksuele oriëntasie en voorkeure.”*

Hoewel die dokument nog nie amptelik bekend gestel is vir publieke insette nie, is dit glo onder bespreking deur verskillende rolspelers. Wie hierdie rolspelers presies is moet nog gesien word. Terwyl die resultate van sulke “riglyne” in ander linksgesinde lande reeds sigbaar is, wil die CDP sterk misnoë uitspreek oor sulke inmenging in ons onderrigstelsel en teken hiermee ‘n heelhartige teenkanting aan teen die demonies-geïnspireerde poging deur ‘n regeringsinstansie om só ‘n aanvegbare onderwerp in ons skoolleerplanne in te bring.

Pleks daarvan om daarop te fokus om ons kinders te leer van morele beginsels en onderwerpe soos lees, wiskunde en wetenskap wat hulle van waarde sal wees vir die res van hulle lewens.

Een van die idees wat voorgestel word is dat onderwysers nie meer leerders as “seuns en dogters” aanspreek en met name wat geslag aandui omrede, volgens hulle, “Niemand weet wat die geslag van ‘n person is deur bloot na hulle te kyk nie”.

Leerders moet ook, onder geen omstandighede, van mekaar onderskei word as “seuns en dogters” nie omrede dit “geweldig verwarrend” vir transgender leerders is. Hiernaas is nie-geslags spesifieke toilette en badkamers of aantrekkamers nodig en geslagsneutrale uniforms moet beskikbaar wees as leerders dit wil dra.

Google vertel, “daar is baie geslagsidentiteite insluitende manlike, vroulik, transgender, geslagsneutraal, “non-binary, agender, pangender, genderqueer”, dubbelgees, derde geslag en almal, geen of ‘n kombinasie daarvan. Volgens Healthline is daar agt-en-sestig begrippe wat geslagsidentiteit en -uitdrukking beskryf. Om te dink dat hierdie hele beweging begin het met “moffies en lesbieërs”. Volgens die Woord van God en biologie is daar egter net twee geslagte naamlik manlik en vroulik. Enige ander is mensgemaak en vervaardigde uitvloeiels.

Hoewel ‘n segspersoon vir die departement aangedui het dat hierdie slegs riglyne is en dat die konsep nog nie met rolspelers bespreek is nie, wil die CDP ‘n appèl aan kerke rig om hierdie saak ernstig te bejeen. Neem asb. die tyd om betrokke te wees by kwelpunte soos hierdie wat niks minder is as die breinspoeling van die kinders van julle gemeentes nie.

Die CDP sal hierdie aangeleentheid dophou en verdere verwikkelings bekend maak.
